tournament, the opponent who did not commit the foul advances. This rule can only be applied to the fourth overtime round.

Only in a tournament format should overtime rounds be contested. At all other times the judges evaluation and score remains final.

## 19) **SCORING TECHNIQUES:**

Effective Striking/Grappling shall be considered the first priority of round assessments. Effective Aggressiveness should not be considered unless the judge does not see ANY advantage in the Effective Striking/Grappling realm. Cage/Ring Control should only be needed when all other criteria are 100% even for both competitors.

### **1) Effective Striking/Grappling**

Legal blows that have immediate or cumulative impact with the potential to contribute towards the end of the match with the IMMEDIATE weighing in more heavily than the cumulative impact.

Successful execution of takedowns, submission attempts, reversals and the achievement of advantageous positions that produce immediate or cumulative impact with the potential to contribute to the end of the match weigh more heavily than the cumulative impact. It shall be noted that a successful takedown is not merely a changing of position, but the establishment of an attack from the use of the takedown.

Submission attempts that cause an opponent to tire and weaken, taking considerable effort to escape shall be given greater weight when scoring than those attempt that are easily defended and escaped without effort.

High amplitude and impactful throws and takedowns are weighed more heavily than athletes who are tripped or bundled to the mat.

This will be the deciding factor in a high majority of decisions when scoring a round. The next two criteria must be treated as a backup and used only when Effective Striking/Grappling is 100% equal for the round.

### **2) Effective Aggressiveness**

Aggressively making attempts to finish the fight. The key term is '*effective*'. Chasing after an opponent with no effective result or impact should not render in the judges' assessments

Effective Aggressiveness is only to be assessed if Effective Striking/Grappling is 100%

equal for both competitors.

### **3) Fighting Area Control**

Fighting area control is assessed by determining who is dictating the pace, place and position of the match.

Fighting Area Control shall only to be assessed if Effective Striking/Grappling and Effective Aggressiveness is 100% equal for both competitors. This will be assessed very rarely.

#### **Round scoring:**

The 10 point must system shall be utilized when scoring a fight.

#### 10–10 Round

A 10 – 10 round in MMA is when both fighters have competed for whatever duration of time in the round and there is no difference or advantage between either fighter.”

A 10 – 10 round in MMA should be extremely rare and is not a score to be used as an excuse by a judge that cannot assess the differences in the round.

#### 10–9 Round

A 10 – 9 Round in MMA is where one combatant wins the round by a close margin.

A 10 – 9 round in MMA is the most common score a judge assesses during the night. If, during the round, the judge sees a fighter land the better strikes, or utilize effective grappling during the competition, *even if by just one technique* over their opponent, the judge shall give the winning fighter a score of 10 while assessing the losing fighter a score of 9 or less.

A score of 10 – 9 can reflect an extremely close round or a round of marginal domination and/or impact.

#### 10–8 Round

A 10 – 8 Round in MMA is where one fighter wins the round by a **large** margin.

A score of 10 – 8 does not require a fighter to dominate their opponent for the entire 3 minutes of a round.

The score of 10 – 8 is utilized by the judge when the judge sees verifiable actions on the part of either fighter. Judges shall ALWAYS give a score of 10 – 8 when the judge has established that one fighter has dominated the action of the round, had duration of the domination and also impacted their opponent with either effective strikes or effective grappling maneuvers that have diminished the abilities of their opponent.

#### 10–7 Round

A 10 – 7 Round in MMA is when a fighter completely overwhelms their opponent in Effective Striking and/or Grappling and stoppage is warranted.

A 10 – 7 round in MMA, namely amateur competition is a score that judges will rarely give.
